

Hutchinson Expands Direct Install Footprint to Atlantic and Cape May Counties

CHERRY HILL, NJ (August 8, 2017) - - Hutchinson, a participating contractor in New Jersey's Clean Energy *Direct Install Program*, has been awarded a contract to expand its Direct Install service area to include Atlantic and Cape May Counties.

Through Direct Install, Hutchinson's staff will assist businesses in completing the application/agreement, perform the FREE energy assessment to identify eligible equipment replacements, and replace the eligible lighting and equipment.

Direct Install is a turnkey energy efficiency solution created specifically for existing small to medium-sized facilities located in New Jersey with a peak electric demand that did not exceed 200 kW in any of the preceding 12 months. Through Direct Install, Hutchinson's specially trained contractors help businesses complete the application/agreement, perform the FREE energy assessment to identify eligible equipment replacements, and replace the eligible energy-efficient equipment. Currently, the program pays up to 70% of retrofit costs on lighting, heating, cooling & ventilation (HVAC), refrigeration, motors, natural gas equipment and variable frequency drives.

"We're pleased that the New Jersey's Clean Energy Program (NJCEP) and the BPU have approved the 2018 budget continuing the Direct Install Program and expanded our service area to include Atlantic and Cape May Counties," said Ed Hutchinson, President of Hutchinson. "As a Direct Install contractor for several years, we see first-hand how Direct Install provides businesses and government entities with drastic savings and a quick return on investment."

Hutchinson provides turnkey HVAC Direct Install services to eligible businesses and local governments in: Atlantic, Burlington, Camden, Cape May, Monmouth and Ocean Counties.
