

3-step Safe Return to the Office

Did you know that insufficient temperature and humidity control during the COVID-19 shutdown can lead to mold and other issues in your office? Don't compromise the health of your employees! Hutchinson has launched a **3-step "Safe Return to Work"** service to ensure a healthy environment for building occupants.

Step 1:

During **Step 1** to *maintain building performance*, our team will:

- Make sure your HVAC systems are up and running efficiently
- Monitor temperature humidity controls through Wifi Thermostats
- Increase outdoor air ventilation

Step 2:

Enhance Air Quality – air testing, upgrade filters, coil cleanings

Step 3:

Eliminate airborne microbes utilizing advanced UV technology; mold testing
